Title: JITTER BUFFER AND METHODS FOR CONTROL OF SAME

INTERVIEW SUMMARY AND AMENDMENT

Assistant Commissioner for Patents Washington, DC 20231

Sir:

This paper is submitted in furtherance to the Non-final Office Action of October 23, 2001.

Please amend the Patent Application as follows.

IN THE CLAIMS:

Amend claims 1, 3, 4, 7, 9 and 12-14, as below.

Please add new claims 15-23, as below.

Please charge any additional fees associated with this paper to Deposit Account No. 01-2221.

1. (Twice Amended). A method for controlling jitter buffer size for a jitter buffer of a communication device for communication with a network, the method comprising the steps of:

monitoring network activity and determining at least one burst period from said network activity;

analyzing said at least one burst period and determining a likelihood for at least one subsequent burst period therefrom; and

01/25/2002 LMARKS

adjusting said jitter buffer size based on said determined likelihood for said at least one subsequent burst period.
